Enrollment Sequence

Steps to enroll an Older MacOS device

1. Open this link in Safari on the device you want to enroll.
   - https://join.mosyle.com/?account=compassfoundation
2. Click Allow to download the profile.
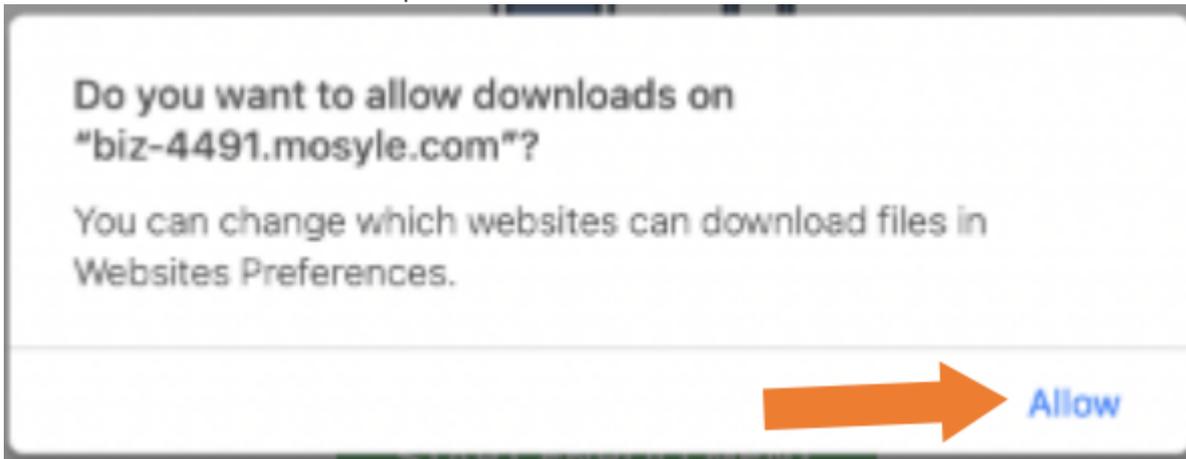

3. Next you should see this popup in the upper right corner of your screen.
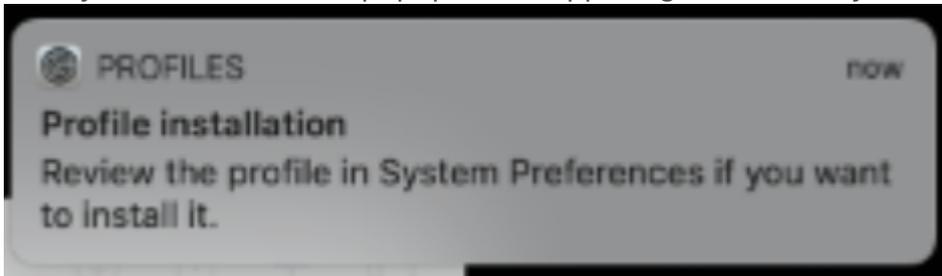

4. Click on this notification or open System Preferences and click on the Profiles icon that now should be showing in the lower right corner of System Preferences.
5. Click Install on the Profile page.
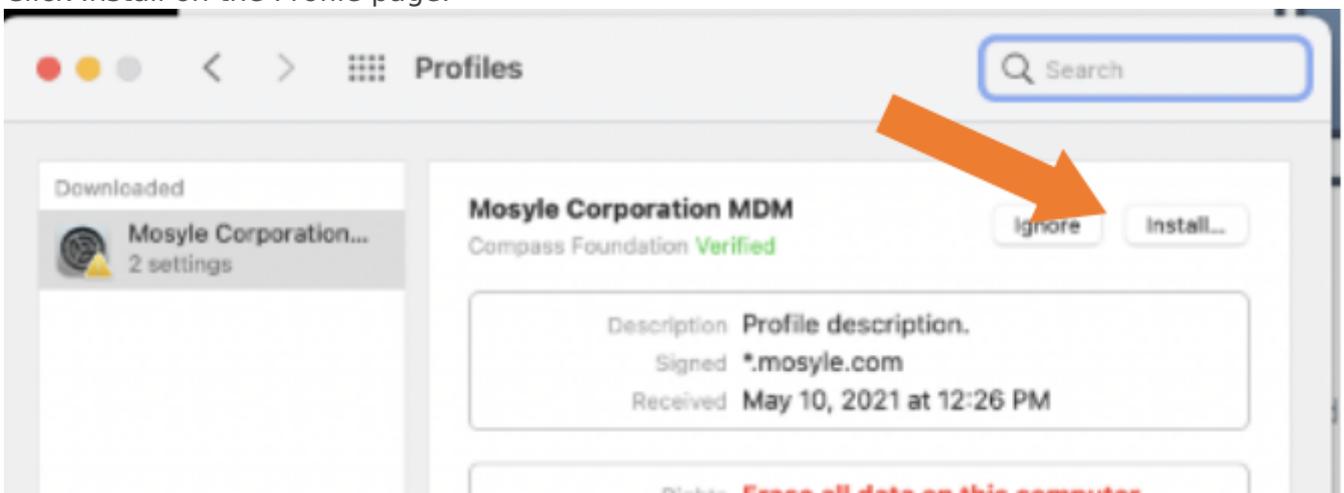

6. Click Install on the warning box that pops up.

7. You will now be asked to enter your computer admin account username and password.
8. At this point your device is managed, but it is not filtered. Please contact Compass Foundation to have the process of applying the filter completed.
