

# Additional Services

- [Passageway](#)
- [Tabula \(deprecated\)](#)

# Passageway

Passageway is a full-featured password management database and sync service that is hosted on the DrawBridge.

Please visit <https://help.passageway.id> for the Passageway documentation.

Note: Passageway is only available to on-premises DrawBridge accounts (not cloud DrawBridge accounts), and the DrawBridge must be running a currently-supported base Operating System. (Passageway is not supported on ClearOS 6 systems.)

# Tabula (deprecated)

Tabula is a contact records database + sync service hosted on the DrawBridge.

Domain: `tabula.<drawbridgename>.myvision.id`

Tabula must be initialized on a per-user basis by going to the Person record and using the record header button menu option to `Create Tabula Account`.
